Crypto Beginners-Toolkit — dc10

Crypto Beginners Toolkit

Year: ~????

Inventor: Satan

You can do easy for example create a ROT13 encryption, that of course can be broken in seconds, but to begin with crypto it's maybe a good exercise, then continue maybe with Vigenère cipher, and then p-boxes and s-boxes.
Be careful, if you begin with crypto eg your local military would like to own you and to prevent that you dont join the crypto-anarchy movement.
Work in pairs of at least 2 people, if they want to put you in mental institution to erase your brain you have better chances to prevent that.

i dont have a lot of time *INSERT: since they target me permantly* <- psychological warfare but if you have time it's quit easy to write something to encrypt and decrypt rot13, alphabet has 26 letters, so if you double-red13 you have again the original...

Matrix "Architect" — dc6

The highly praised „Architect"
probably also MCSE's

..is probably just an MKULTRA Psyop, influencing a complete group of people with a generic upstream mind control system of CIA

The funny thing, in the end the big spked blob kills Neo, making all people forget about the PsyOP that was shown even as a good person. I dont believe that Sigmund Freud = PsyOP is a good person.... but this is not proven >yet<

JOKER CARD

Year: ~NOW

Inventor: ME!!!!!

If you are younger than 40 feel **FREE TO SAY AS MANY WRONG THINGS as you like.** It's not up to you, to teach or to fix people that are older than you how they could have done things better, but do it better yourself and give this card also to the younger generations and don't make the younger generations clean up your mess like the 1950s Generation did to us:https://de.wikipedia.org/wiki/Sondermüll-BCldeponie K%C3%B6lliken

Use Cases
If an older Person gives you a bad feeling, if you said something wrong, it's not worth it to invest your time into his "lessons", often the **teacher (Sophist** quit opposite of a **philosopher)** just compensates his own self-esteem at the expense of his students...

Possibly this unnice guy is on cocaine and thinks he installs psychological malware to the kids at that party. In fact he is just the scapegoate but does it intentionally. Remote Controlled by t1 card. if you find this video you will find out what i mean, listen to what he says.

All the things i wrote to that noted here seems to be deleted:
http://marclandolt.ch/doc/mastersOfHardcore.html

important thing would be that possibly all the young people from this party was owned mit hardware-, software- and psychological backdoors.

if true we need a resuce mission.

1950s Design Psychology — dc8

Design Psychology...

Inside the world's quietest room

...or how the CIA could install the "programm agent" in the head of our "lovely" 1950s

So first the Agent in Matrix (Agent Smith) is somehow to young and to make the Agents feel superior such institutions have specific design, so possibly one would find out quite fast if a company is payed by the NSA/CIA just by looking at the design of the building and the design of its rooms...

not yet 100% sure about that....
